# We want to share this fantastic event with you!

FORMULA STUDENT **2008**

### WHAT IS FORMULA STUDENT?

In the United States SAE Inc started running their Formula SAE programme in 1981. In 1998 two US cars and two UK cars competed in a demonstration UK Event that was held at the MIRA Proving Ground. The initiative was considered to be very worthwhile in providing students with excellent learning opportunities and practical skills.

Teams have their work judged by Industry specialists and demonstrate the performance of the car.

Formula Student is about building future engineering talent by designing and producing a single-seater racing car, not just in design and manufacture, but in many of the management, marketing and people skills so vital in the modern world, across all sectors of employment.

## The Event in Silverstone – July 2008
